

HYCON HPP13D POWER PACK

PRODUCT FEATURES

The HPP13D is perfect for running any 20 or 30 l.p.m. tools in tunnels or other areas where gasoline fuel or fumes are not allowed.

The modern single cylinder diesel engine offers low fuel consumption and maximum power to operate a breaker,

rock drill, core drill, cut of saw or submersible pump.

The strong and well-designed HYCON steel frame ensures great protection, but also easy service access to all vital parts. As known from all HYCON power packs

HYDRAULIC POWER PACK HPP13D
