

# HYCON HCD25-100 CORE DRILL

## PRODUCT FEATURES

The HCD25-100 core drill is the most powerful and easy manageable handheld core drill available. Perfect for any handheld coring in difficult accessible places where rigs or electric drill is not possible to use.

Drilling in concrete pipe, ventilation holes or just any type of job where handheld is just the fastest way to get the job done.

It is extremely easy to use and will drill through any material. There is no need for a drill rig. However for more tough jobs the HCD25-100 fits in a standard drill rig.

Standard 60 mm round front for easy mount on standard light drill stand

Heat insulated handle

The core drill comes with a built in hydraulic torque limiter, which assures max torque and no kickback if the core drill jams. The core drill has an automatic integrated security switch, which stops the core drill if the core bit jams. However, in case of jamming, always loosen the core bit from the material, before you start drilling again. The integrated security is set from the factory and may not be disturbed.

## HYDRAULIC CORE DRILL HCD25-100

Item no. HCD25-100, 20 l.p.m.	<b>3030150</b>
Weight, kg	7,6
Working pressure, bar	100
Max pressure, bar	172
Oil flow l.p.m.	20
R.p.m./drilling diameter, mm	1500/ø25-ø100
Driver adaptor	1/2" BSP Female with an 1-1/4" UNC male adaptor included
Noise level LPA dB	84
Vibration level, m/s	<2.5

Optional Dust suppression kit  
Item no. 3030051
