

HYCON HPP18E POWER PACK

PRODUCT FEATURES

HYCON HPP18E is equipped with a 11 kW motor, and comes in a 30 lpm and a 40 lpm version. The perfect power pack for professional and specialised companies within concrete drilling, cutting and others.

The power packs are equipped with a Y/D start function ensuring low start current.

In spite of the strong motor, the HPP18E is a compact power pack easy to transport in any van.

It is very strongly built, and can work even under the toughest conditions, because the motor and the electric box are approved respectively.

HPP18E has a slow start function reducing the load during starting. It needs no water cooling as it has integrated oil cooler, which is a great advantage - especially in the winter time.

HYDRAULIC POWER PACK HPP18E

Item no. HPP18E	2020111
Oil flow, l.p.m.	1x30 or 1x 40
Max pressure, bar	160
